Introduction

When two clients in short succession mentioned the need for a directory of business services available on our estate, I resolved to deploy one of my youngsters to fill that gap. This directory is the outcome of that resolve. My hope is that it will help all of us to help each other.

This first version is intended to achieve a high level of coverage, but most of the facts are gathered from publicly available information. If you want us to change your entry or if anything has been missed out please email us on peter@hornbeam-accountancy.co.uk and we will include the correction in the next version, if you want to send us your logo again we will try to incorporate it.

If you need further copies we can send you a couple more or you can make your own copies.
